

90-750.5. GRANTED

A. General

This section provides the Granted procedures for the GR IP.

B. Policy

Assistance under the IP is only authorized during the time the person is receiving disability-based income. Upon ending of the disability-based income, the worker will transfer the person to the appropriate program.

If an ongoing disability is claimed, the worker will obtain a medical verification for evaluation of the appropriate program. Otherwise, the person will be considered AB and referred to that program. If the person claims work restrictions for the AB program, a medical evaluation will be required.

C. Transfer to UE

When the medical evaluation indicates that UE is the appropriate program for transfer and the existing certification is due to end within two months, the worker will complete a redetermination and recertification of ongoing eligibility.

D. Transfer to IAP

When the medical evaluation indicates that IAP is the appropriate program for transfer, the worker will:

- complete a redetermination if the existing certification is due to end within two months; or
 - change the certification period to 12 months from the previous authorization of aid (initial granting or redetermination).
-

E. Transfer to AB

When IP eligibility ends and there is no apparent eligibility for UE or IAP, the worker will determine if there is potential eligibility to AB. To determine potential AB eligibility, the worker must determine if there are any remaining months of potential AB eligibility. The months of potential AB eligibility start the month following the month in which the final disability-based income was received. To determine potential AB eligible months, the worker will need to determine if there is an existing TMP or if a new TMP is to be established.

90-750.5. GRANTED, Continued

F. Existing TMP The table below shows how to treat the case if there is an existing TMP.

If ...	Then the worker ...
a previous TMP was established and has not ended,	must determine if there are any further AB months remaining.
no existing months of AB eligibility remain,	will discontinue the case and inform the recipient when AB eligibility will again be available.
there are existing months of AB eligibility,	will determine the number of remaining months and: <ul style="list-style-type: none">• complete a redetermination if the number of months remaining in the current certification period is less than the remaining months of AB eligibility; or• transfer to AB without an additional redetermination if the months remaining in the current certification period equal or are more than the remaining months of AB eligibility.

G. No Previous TMP/New TMP If there was no previous TMP or the previous TMP has expired, the worker must take the actions in the table below.

Step	Action
1	Start the AB time-limit with the month following the ending of the disability-based income.
2	Complete a redetermination if the number of months remaining in the current certification period is less than the remaining months of AB eligibility.
3	Transfer to AB without an additional redetermination if the months remaining in the current certification period equal or are more than the remaining months of AB eligibility.
4	Refer the person to JT.
5	Begin Job Search requirements.

H. Certification Period

The certification period for IP eligibility is 12 months.

I. Quarterly Reporting

The IP recipient is required to complete quarterly reporting (QR 7).

GRPG Letter #76 (8/14)

J. JT/JS

An IP person is not required to complete JT or JS activities.

K. Application for Medi-Cal

If the applicant has been incapacitated for 12 months or longer, or claims an incapacity that is expected to last 12 months or longer, he/she must apply for Medi-Cal and cooperate with the Medi-Cal application process in order to maintain GR eligibility. If the individual fails to cooperate with the Medi-Cal application process, he/she must be discontinued with timely notice.
